to/within Amsterdam remains consistent

Hoofddorp

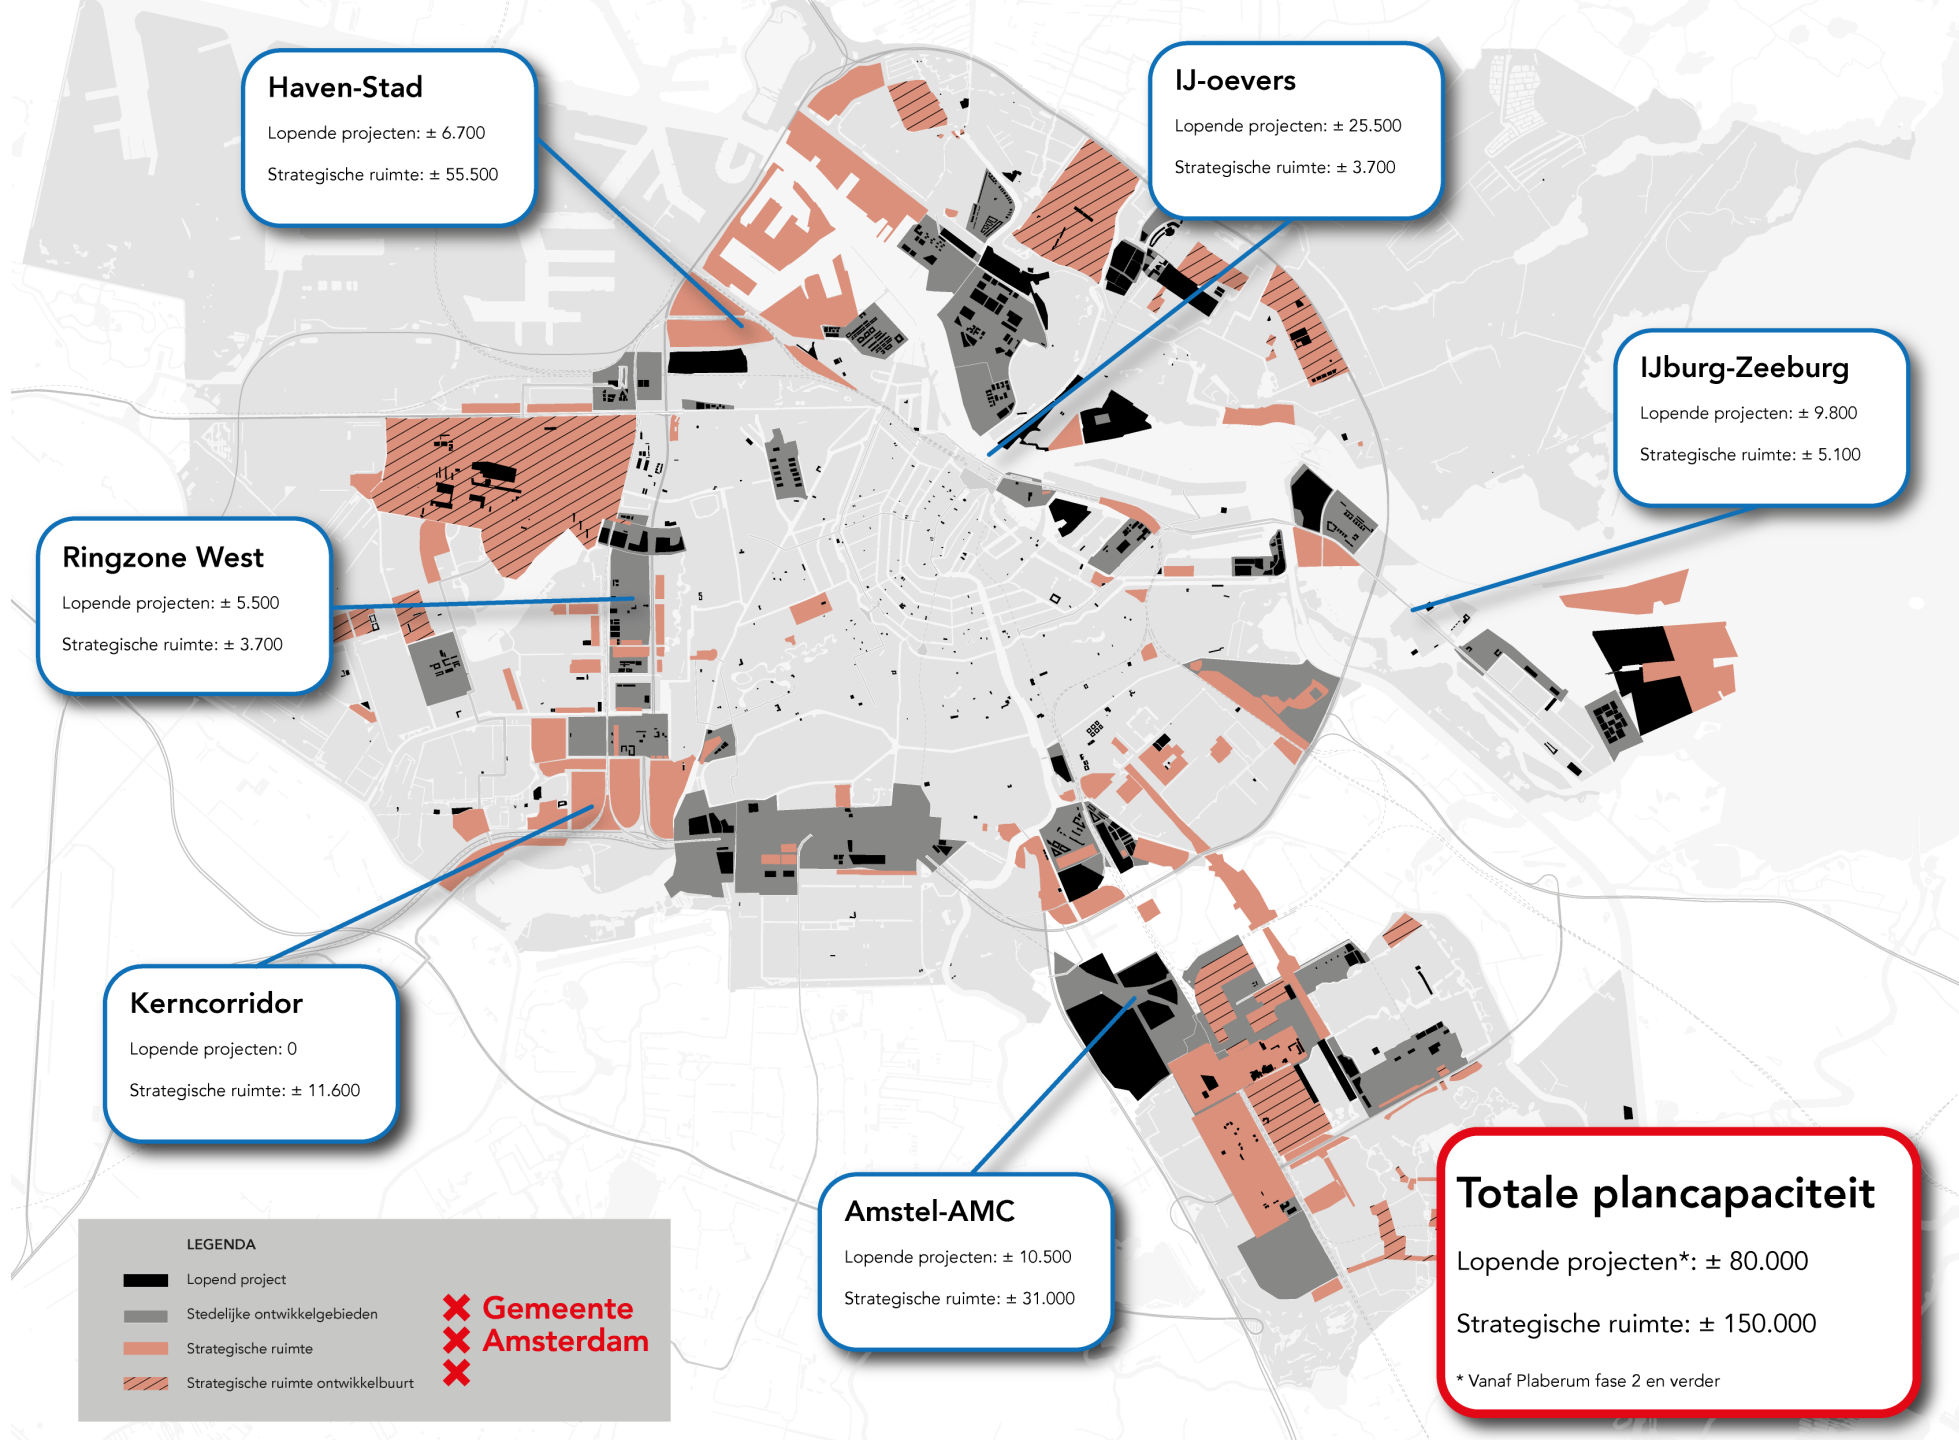

XXXXXX

The map shows a city layout with a grid of streets. A central area is highlighted in green, while the surrounding areas are highlighted in red. The green area is roughly rectangular, with some irregularities. The red area covers the rest of the city, including the edges and some internal streets. The map is oriented with North at the top.

Gemeente
 Amsterdam

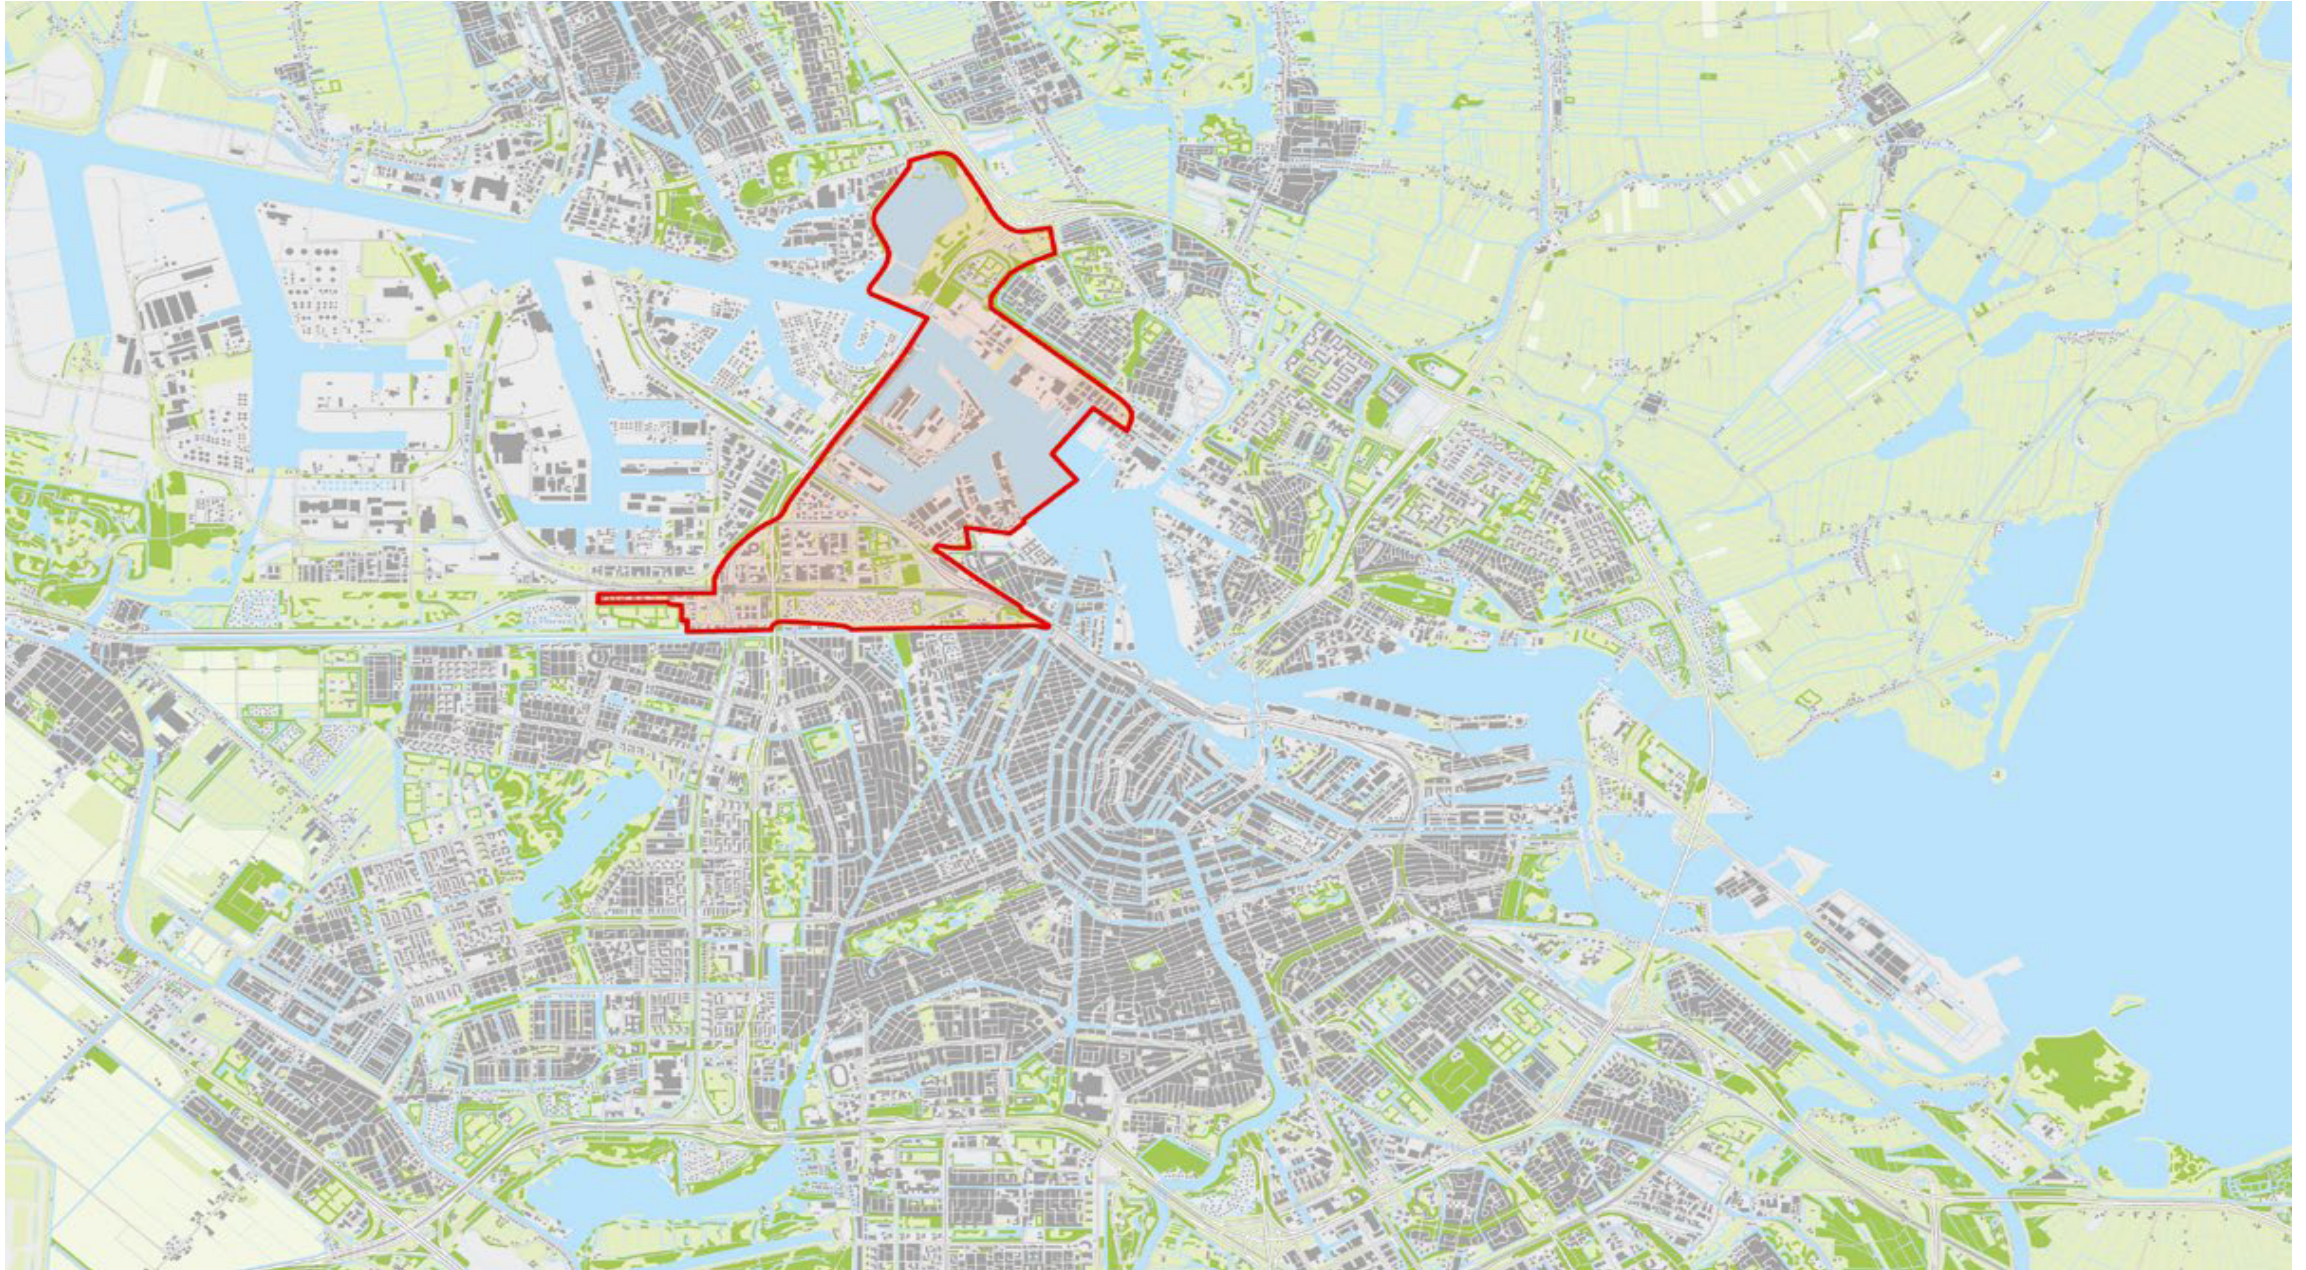

The plans for Haven-stad highlight the importance of public and water transport

Also walkability and cycling routes are becoming more important to reduce car use

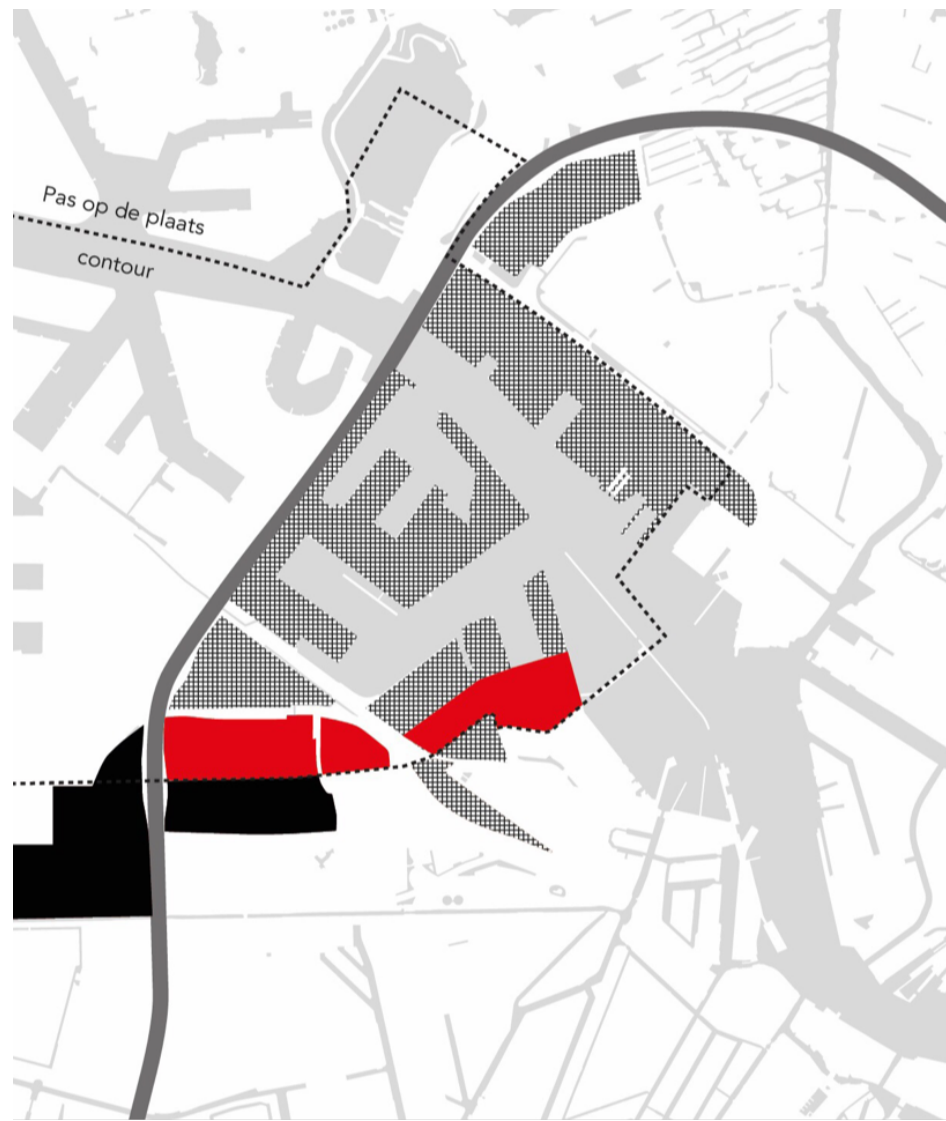

Location

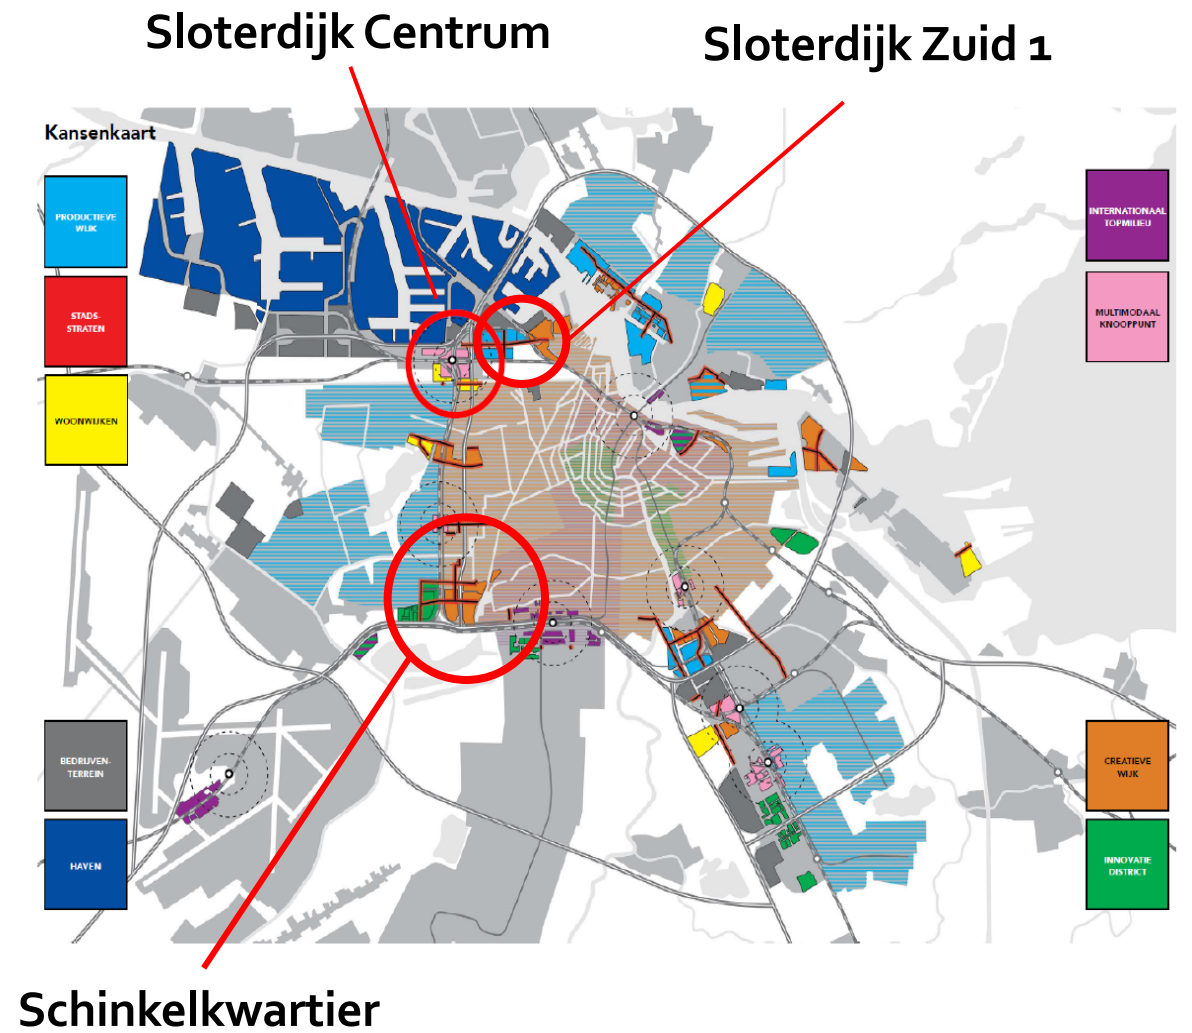

The plans to speed up the building of Haven-Stad are mainly focussed on the area at the south of the water (IJ)

A previous memorandum of understanding prohibits building in environmentally restricted business zones until 2039

XXXX Sloterdijk Centrum

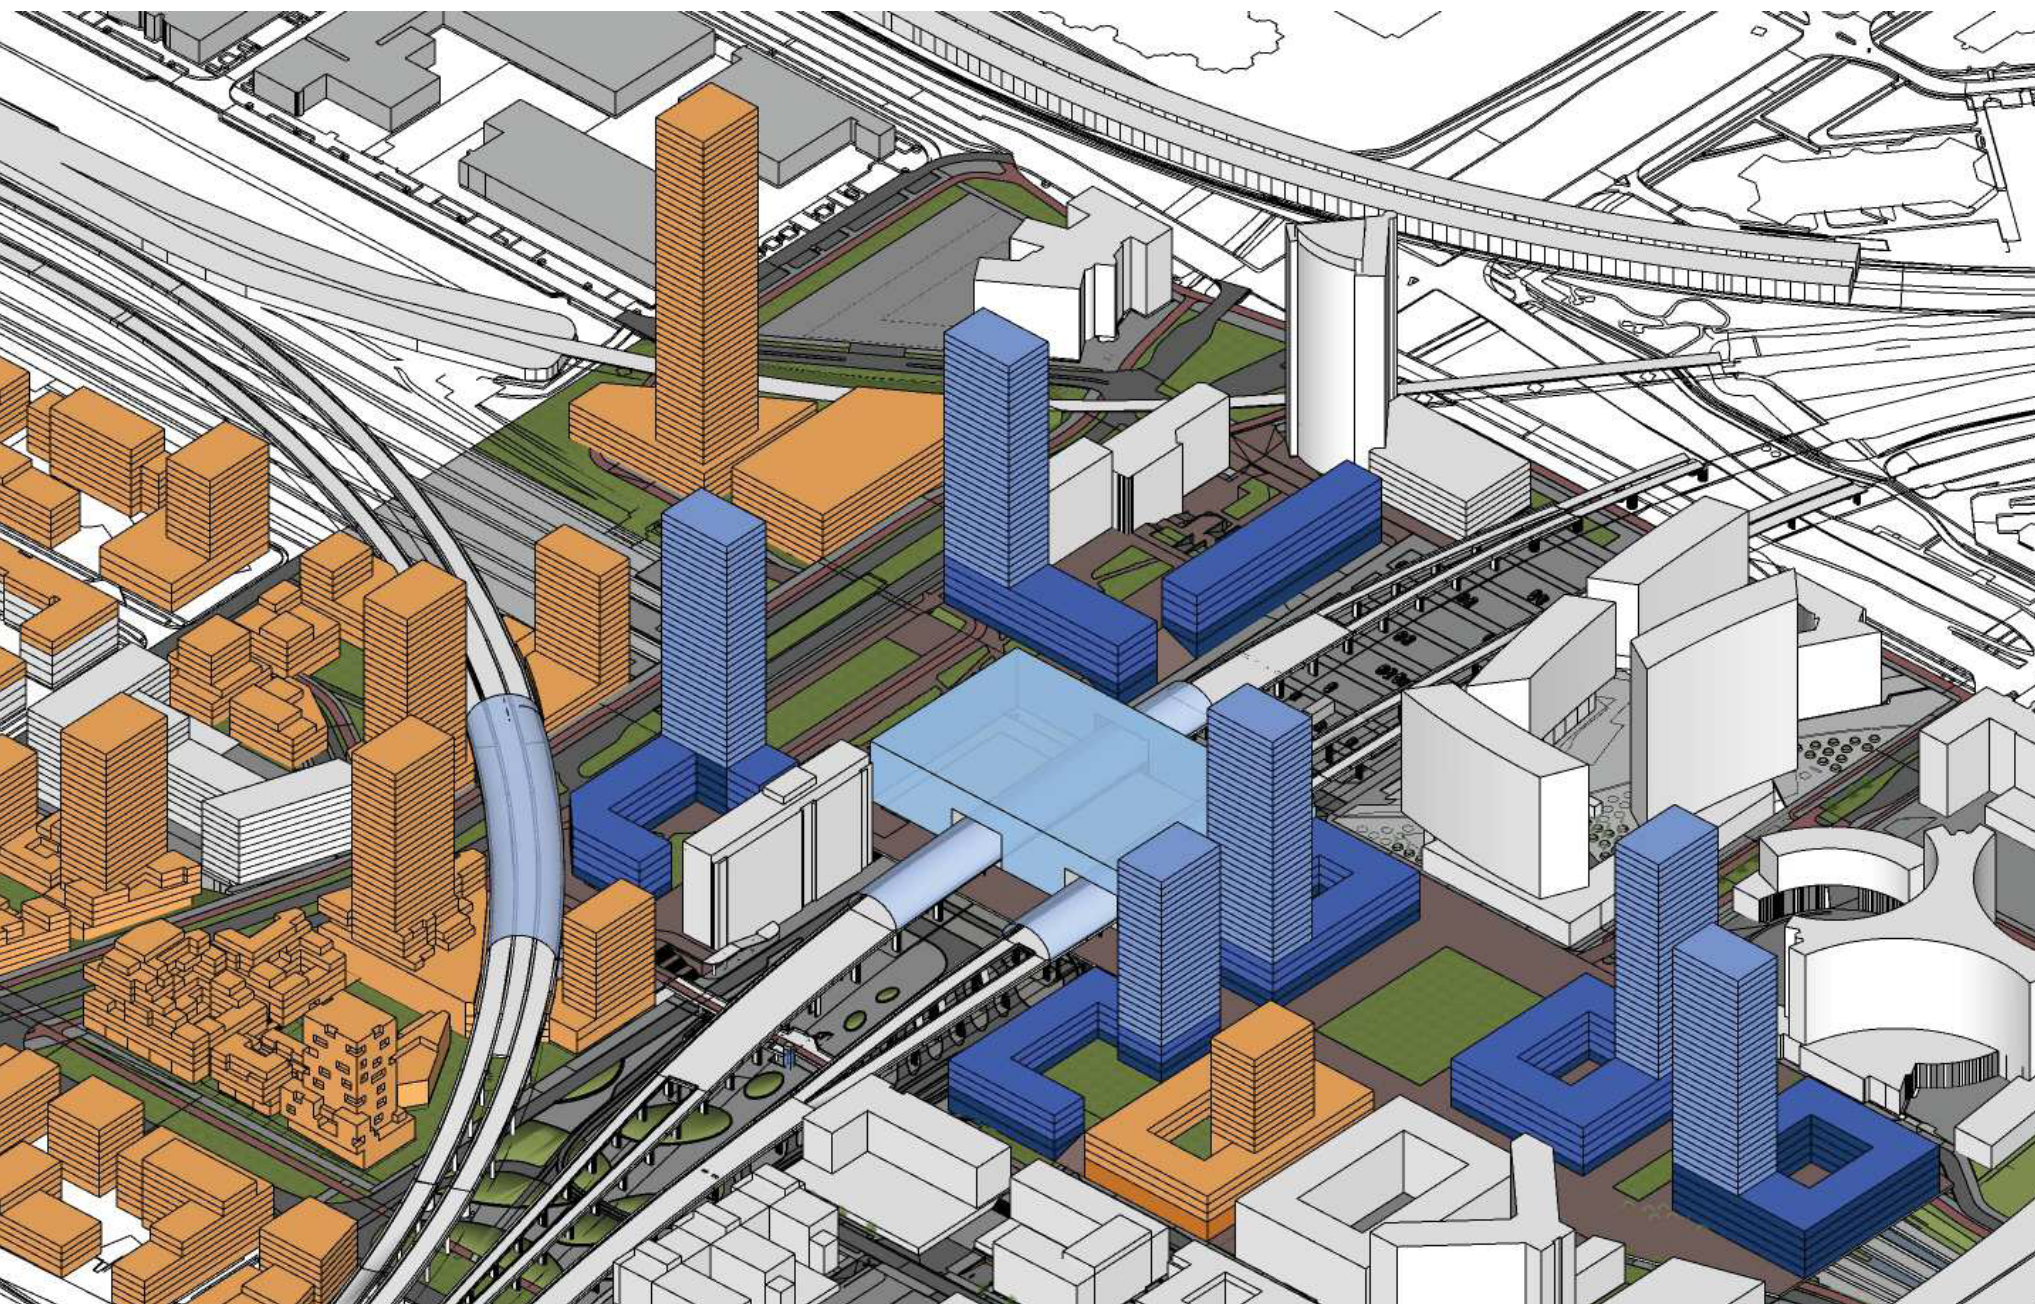

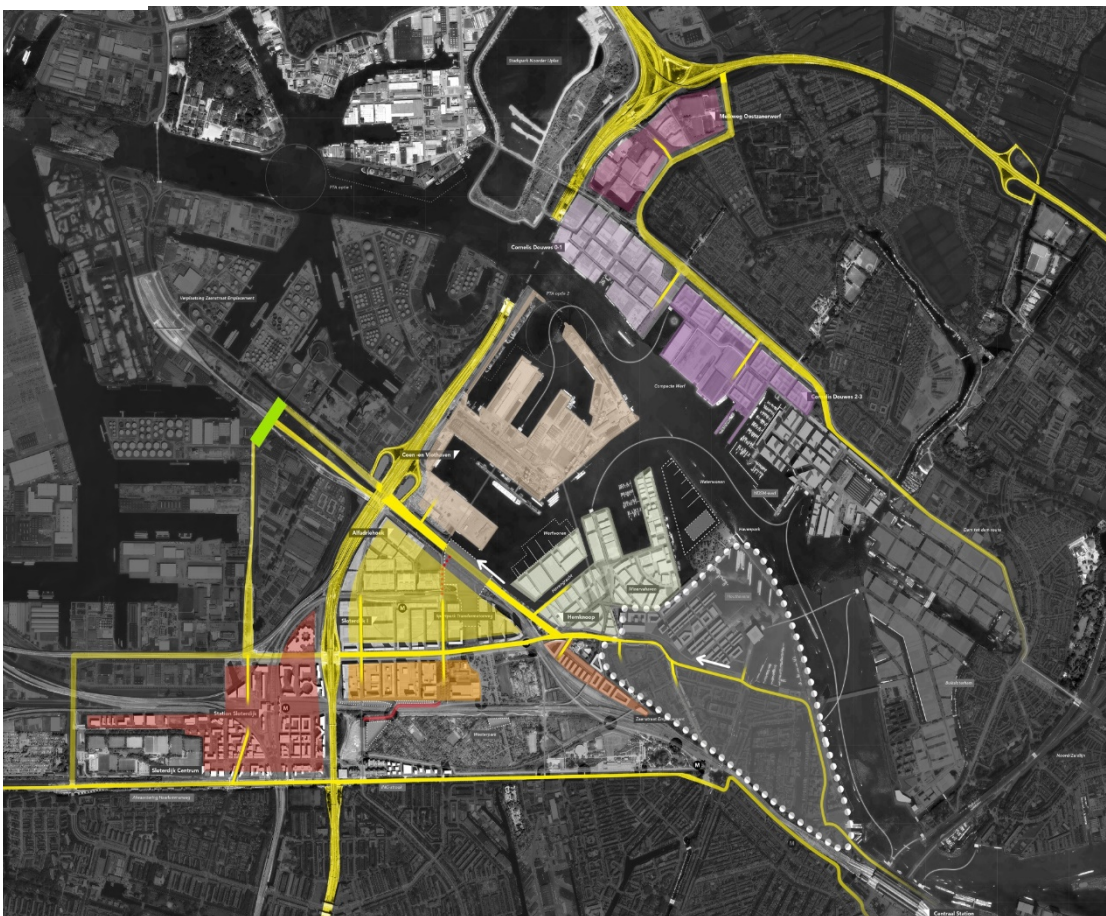

Haven-Stad will be a modern urban area where there is room for working and living

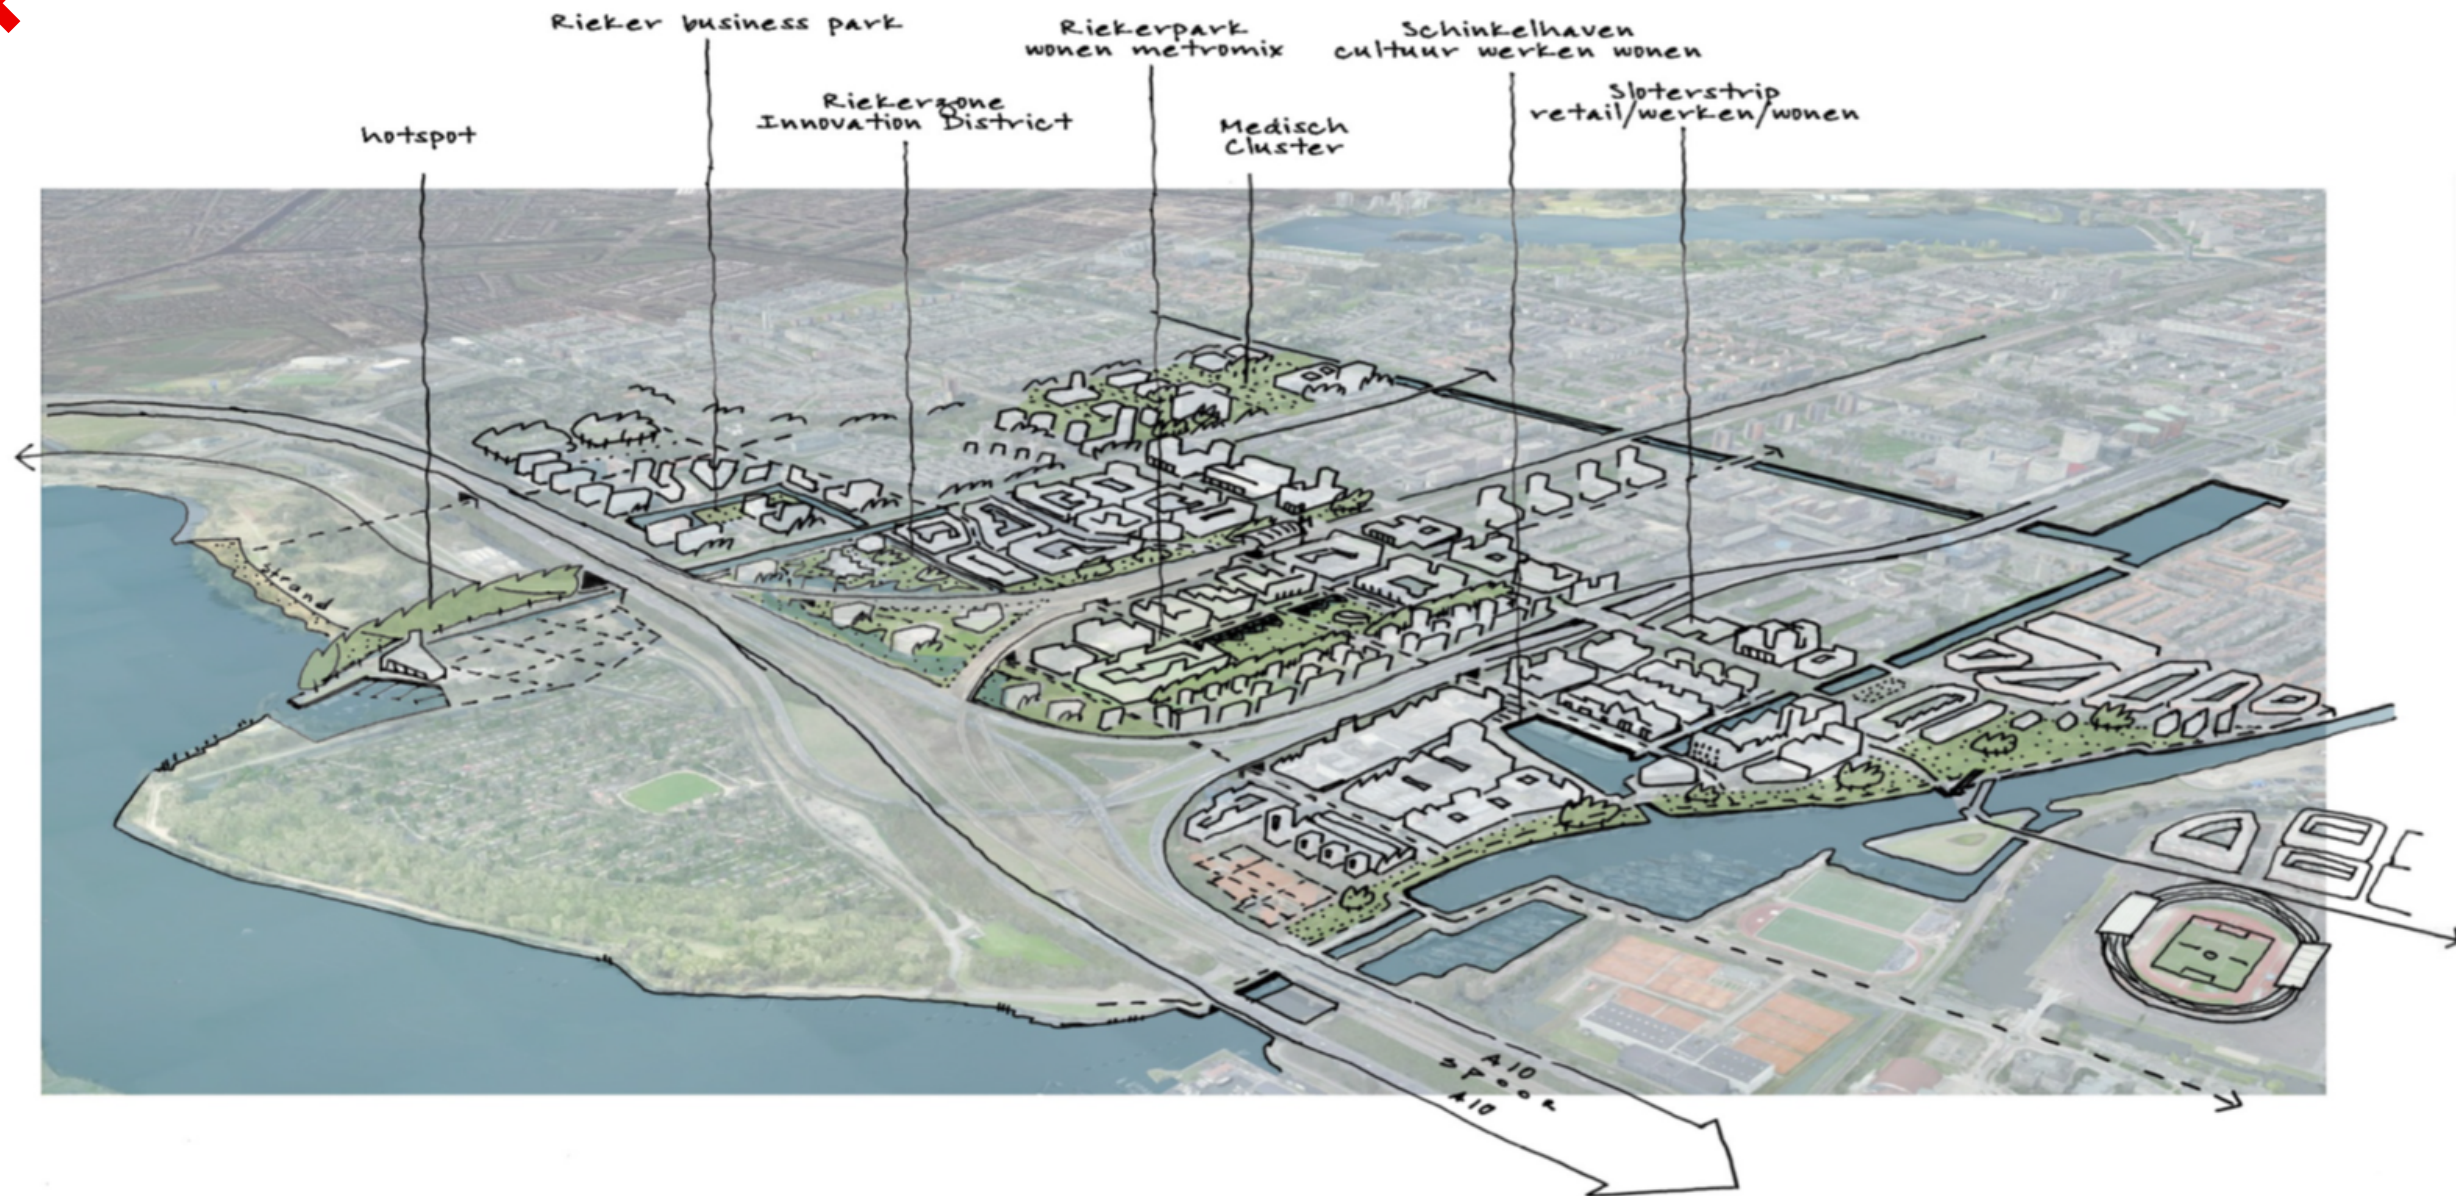

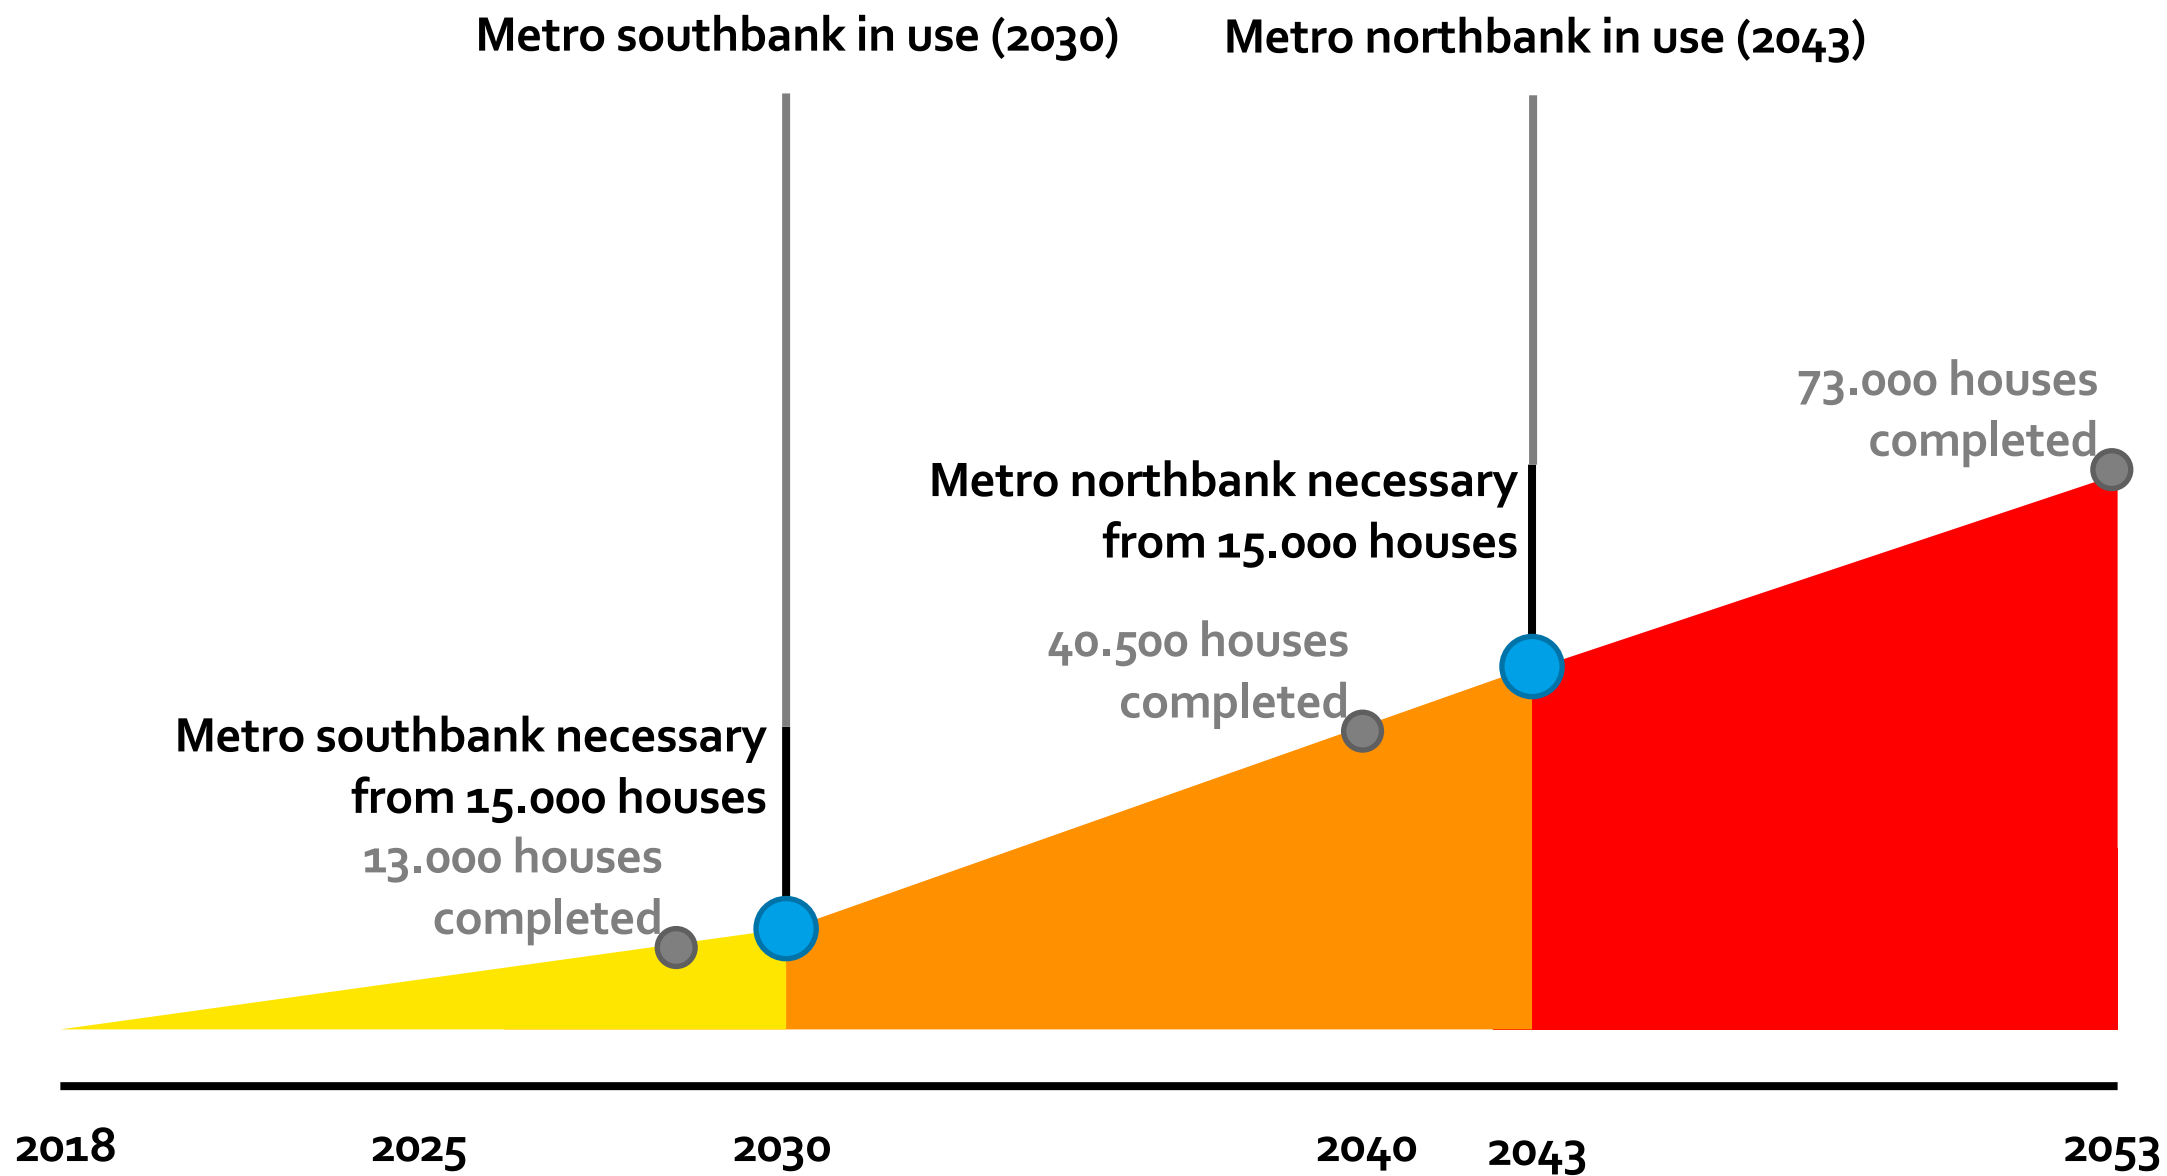

Sloterdijk 1 Zuid
